

# CP200

## Heavy-duty, single pump dispenser for dishwash & small laundry needs

The CP 200 is an ultra-reliable heavy-duty single pump dispenser for all glass/dishwashers and laundry machines up to 20Kg.

Available in multiple configurations, it is ideal for use in restaurants, hospitals, hotels, care homes, schools and many others.

Perfect for small domestic on-site laundry machines to use with a single chemical product.

For Dishwash machines:

- Speed or time control for single tank dishwashers
- Push button mode for Laundry injection
- Conductivity control for single tank and conveyor dishwash machines where a probe measures the solution.

## Features and Benefits

- Suitable for all dishwash machine types – Rack/ Conveyor, Pass-through and Front Loader
- Suitable for either detergent or rinse aid products
- High pump output – up to 180mls/min.
- Time or Speed control available from a single unit
- Conductivity probe model available
- Pre-wired for easy set-up
- Full installation kit included
- Easily serviced from front
- Doses adjustable from 0 to 360ml.
