

HydroPump

Durability, simplicity & value for manual push-pump dispensing applications

The HydroPump features a unique push pump design and is used to dispense cleaning chemicals into sinks, buckets, or other cleaning receptacles. The HydroPump is the user friendly choice, allowing the operator to precisely control the amount of product yielded.

Features and Benefits

- Chemical resistant
- Field-adjustable to deliver 15, 22, or 30 mLs per push

- Quick recovery to maintain accuracy during multiple doses
- Extremely accurate with both thick and thin product types
- Product can be stored up to one foot above the pump for use in confined spaces
- Directional spout or standard tubing discharge options available

Model	Dispenses via	Dose amount mls.
616GB	Aluminium spout	15, 22 or 30
617GB	PVC discharge tube	15, 22 or 30
