Total Eclipse

Laundry Chemical Management System for sophisticated laundry operations with up to 8 products

The Total Eclipse controller is a reliable tool for automatically management laundry operations that require sophisticated control and data management.

It has a modular 3 component system (machine interface, controller and delivery system) with 8 pump capability. It is able to read among 200 programmes (each programme can contain up to 20 formulas) and can be configured via USB.
It provides reports in HTML or Excel of production, cost, and chemical consumption via USB.

- Data can be held on a key ring
- 128mb - 30,000 setup files. Only 100-120 files can be read by the controller.
- Memory stick transfers data from:
- PC to controller
- Controller to controller
- Controller to PC
- Controls up to 8 products
- Program up to 20 different wash formulas
- Simple and intuitive PC based programming
- Multiple languages available

- Name formulas and pumps with customer and industry-specific names
- Vertical or horizontal mounting
- Controller setup files can be moved from controller to controller via standard USB port
- Part of a pre-wired modular system
- Dual level password protection
- SAE or metric units of measurement
- PC based programming
- Optional Flush Manifold

Model	Number of Peristaltic Pumps	Formulas	Standard tubing	Flow rates mls./min. All pumps
Low Flow Models				
L2-R7BKJJ	2	20	EPDM	350
L2-T7BKJJJ	3	20	EPDM	350
L2-U7BKJJJJ	4	20	EPDM	350
L2-V7BKJJJJJ	5	20	EPDM	350
L2-W7BKJJJJJJ	6	20	EPDM	350
High Flow Models				
L2-R7BKYY	2	20	EPDM	500
L2-T7BKYYY	3	20	EPDM	500
L2-U7BKYYYY	4	20	EPDM	500
L2-V7BKYYYYY	5	20	EPDM	500
L2-W7BKYYYYYY	6	20	EPDM	500
