

EvoOne Bottle Lockout

A No Chemical Contact cap system with exclusivity for EvoOne

The No Chemical Contact cap system provides chemical exclusivity with the EvoOne product range, while also preventing users from coming into accidental contact with the chemical. Made up of two separate parts, this system prevents users from switching out chemical bottles with other brand chemicals.

Simply tear out the centre of the cap to expose the foil, fit the locking mechanism over the cap and push down the lever to pierce the foil and allow chemical flow.

- Unique foil sealed cap assembly for chemical bottles
- Locking mechanism pre-installed into cabinet
- Simple, easy to use design - requires no special tools
- Guaranteed chemical exclusivity

Part Number	Description
HYD10099603	Complete Retrofit Kit
HYD10098807, 08	Cap Assembly / Bottle Lockout Cap
